

Heylen Bricks, traditional bricks

A new brand for Wienerberger

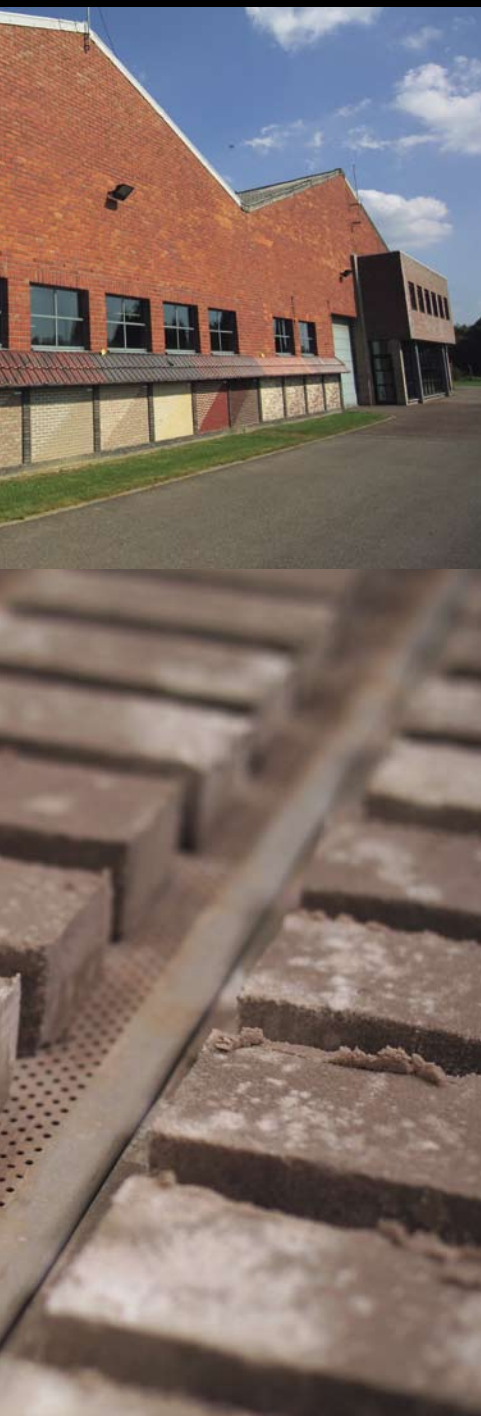

**HEYLEN
BRICKS**

Wienerberger

Over 100 years experience

For more than a century Heylen has been manufacturing architectural bricks. Heylen has a long family tradition which has enabled the knowledge of making handcrafted bricks to be passed on through 3 generations. The unique colours are assured by the care dedicated to the details, the choice of clay used and the mastery of firing.

The integration of Heylen bricks does not only increase the Wienerberger portfolio but it is also an opportunity to offer an extended range of traditional multicoloured, monochrome or rustic bricks.

Synonymous with sustainability and durability, Heylen bricks stimulates your imagination and offers the choice of mixing colours and formats so that everyone can create their own style.

The Heylen range can be used for all projects, from the construction of traditional houses to modern architectural buildings.
